

KRCRC Public Information Night

Wednesday 23rd February 2011
7:00 – 9:00pm @ Kinglake Village Hall

Sustainable Housing Innovator & Earthship Architect

Michael Reynolds

Building Sustainable Homes & Communities in the Aftermath of Natural Disasters

For over forty years he's been designing and building sustainable homes that heat and cool themselves, are built from natural and recycled materials, produce their own electricity, collect their own water, treat their own sewage and grow their own food.

Green Cross Australia 'Build It Back Green' showcase

<http://builditbackgreen.org/bushfires.aspx>

A new service designed to help Victorian communities recovering from Black Saturday to build their homes back in an affordable and sustainable manner. Build It Back Green's website provides comprehensive advice on the lowest cost green rebuilding techniques, focusing on energy efficiency, water savings, waste disposal, comfort and indoor air quality.

Free Film Night - The Garbage Warrior

the incredible story of one man's determination to build self-sufficient, off-the-grid communities and the resistance his green proposals generated from government authorities and big business

Wednesday 16th February 2011
7:00 – 9:00pm @ Kinglake Village Hall

Refreshments provided
